

EXPEDITED TRUCKLOAD SERVICES

Fleet power at the speed of light.

Our Expedited Truckload team of experts can handle anything and everything road-related through an expansive network of independent domestic partners. Because we're backed by the financial security of Estes Express Lines and have access to unique software that allows alliances of specialized trucking professionals, we can bring you direct access to one of the nation's largest fleets.

The power of our Expedited Truckload Division means you get the equipment and customized transportation solution your business requires, even at a moment's notice. Take advantage of unrivaled capacity, door-to-door service, and 24-hour tracking — all within DOT guidelines.

Whether it's one-time or long-term, EFW has the network to meet your supply chain demands with the highest service standards — because we care about your shipments as much as you do.

Our services include:

- Expedited dry van (single and team drivers)
- Box trucks (single and team drivers)
- Cargo/Sprinter vans (single and team drivers)
- Curtain side/Hot Shot Conestoga (169x90x101)
- Refrigerated/Temperature-Controlled sprinter vans & box trucks

The EFW Experience

At EFW, the golden rule is our guiding principle. We've worked hard to create an environment that treats our clients, partners, and each other the way we would want to be treated. The EFW Experience is why our Net Promoter Score (NPS) remains high, our relationships with our partners are strong and steadfast, and why our customers recommend us time and time again. To put it simply, it's about caring—every day, every step of the way.

The EFW Experience is our:

CAPACITY

We've partnered with 10,000+ carriers to bring you the capacity and choice you need. Our connection to our parent company, Estes Express Lines, brings you access to 230+ terminal locations, 27,000+ trailers, and 8,000+ drivers. Through EFW Warehousing, EFW's full-service warehousing network, we provide our customers with over 3.5 million square feet of directly managed warehousing space and access to an extensive warehousing network across the United States.

LONGEVITY

When you're in the shipping business, stability is key, and that includes financial stability. Since we were founded in 2003, we've grown every year—expanding our network to deliver better solutions to the customers we serve.

REPUTATION

Our business is backed by a full range of accreditations and is recognized with a wide array of business awards. To ensure industry-leading levels of client satisfaction and loyalty, we've implemented a formal Net Promoter Program and developed a team solely dedicated to the EFW Experience, which includes reputation management. We use the data collected to drive continuous improvement and elevation of service.

PROCESS

The EFW process enables us to bring customers the most optimal solution for their needs. From discovery to design and implementation to in-depth reviews, we work hard to exceed expectations every time.
